

With The “World’s Best Roof”® Manufactured Right Here In Your Backyard

WHY GO ANYWHERE ELSE?

Michigan is currently experiencing very challenging times. If industries, businesses, and individuals throughout the state can unite and make a solid attempt to return Michigan to economic prosperity, this year has the potential to be a significant turning point in our state’s history.

As we all know, manufacturing is a vital part of Michigan’s economy. Duro-Last® Roofing, Inc. has been a Michigan manufacturer for over 30 years. By installing the Duro-Last roofing system, you are not only receiving a high-quality product, you are also helping to put Michigan back on top.

WHY MICHIGAN?

Michigan has one of the most highly-skilled and well-educated labor forces in the country, which is the key component to Duro-Last’s success. Many of Duro-Last’s employees and authorized contractors have been with the company since its beginning. Duro-Last is trusted by building owners because of its high-quality products and the support contractors and customers receive from the manufacturer.

WHY DURO-LAST?

Energy-Efficient: Energy conservation has become an important element of everyday life at home and in the workplace, and Duro-Last recognizes the significance of producing a product that is highly energy-efficient and will deliver real utility cost savings.

Durable: The Duro-Last roofing system is fire retardant, resistant to chemicals, grease, high winds and punctures, and easily accommodates wide temperature extremes. Once installed, a Duro-Last roof is watertight and virtually maintenance-free.

Consumers Energy in Marshall, MI

Custom Prefabricated: Every Duro-Last project is prefabricated to fit each roof precisely. By performing 80-85% of the membrane welding in a controlled factory environment, Duro-Last reduces the potential for rooftop installation errors and leaks.

Business As Usual: Installation is quiet and safe, without loud machinery, hazardous materials, noxious fumes, open flames, hot tar or mess. A new Duro-Last roofing system can often be installed over an existing roof without an expensive tear-off, virtually eliminating debris that could disrupt building activities or damage sensitive equipment.

Backed By The Industry’s Best Warranties: Duro-Last is so confident in the durability of our roofing systems that we protect commercial and industrial installations with the best warranties in the industry. Our standard, comprehensive 15-year No Dollar Limit (NDL) warranty is transferable, has no exclusions for ponding water, and provides coverage against consequential damages that result from defects in the Duro-Last material and/or installation workmanship. Duro-Last also has 20-year warranties available.
